

CERTAINTY IN YOUR DATA CENTRE

Design. Build. Manage. Our data centre solutions provide end-to-end services for supporting the most critical environments in today's business world.

ONE DESTINATION A COMPLETE SERVICE

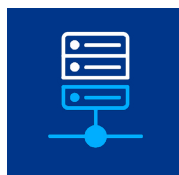

Onnec is an 800 strong global team of experts who can design and deliver the IT infrastructure and managed services needed to keep critical environments such as data centre, office or fulfilment centres running efficiently.

Leveraging 30 years of unrivalled expertise and working with leading data centre customers and hyperscalers across the globe, we have developed a comprehensive portfolio of services which support clients through every stage of the infrastructure lifecycle. From initial analysis to construction, integration, and optimisation, we offer the complete data centre solution.

WHY CHOOSE ONNEC?

- **Trusted at the top**
Our high quality of work has been rewarded with the trust of numerous blue chip companies in more than 40 countries, with over 12 of our top 20 clients being with us for over 20 years
- **30+ years experience**
Customers benefit from decades of experience and industry-leading standards – deployed at a local level.
- **Partnered with world leading manufacturers**
Strong partnerships are key to us giving the solutions you need. That's why we work with all major providers of network and infrastructure technology.
- **A global partner at a local scale**
Our expertise and global partnerships mean we can be a single point of contact for the life cycle of your environment.

OUR DATA CENTRE SOLUTIONS & SERVICES

Structured Cabling

As a global leader in structured cabling, our specialist teams design and deploy copper and fibre cabling solutions from the ground up.

Data Centre Managed Services

Our On-Demand Field Services provides around-the-clock operational support for the management, installation, and troubleshooting of your data centre.

DC Migration

Whether you are scaling up or down, our end-to-end process provides the expertise and support you need, whether migrating 1 rack or 10,000 racks.

IMACD

Installations, moves, adds, changes and decommissioning. From one-off swaps to major relocations, our service team will help plan, manage and undertake these moves for you.

Onnec iQ

Connect and monitor energy data in one holistic view to enable a more efficient data centre, with our software platform Onnec iQ.
