ABOUT US

YOUR INFRASTRUCTURE OUR FOCUS

In the ever-changing world of data centres, your IT Infrastructure needs a partner who delivers at every stage.

Onnec delivers world-class, global data centre solutions for today's most critical and complex environments. As data centres evolve to support AI, high-density compute, and rapidly scaling workloads, we provide future-ready infrastructure that performs securely, reliably, and at scale.

Our globally deployed teams of locally trained specialists ensure consistent delivery across regions while remaining agile to local requirements. Trusted by leading operators, hyperscalers, and enterprises, Onnec supports some of the world's most advanced data centres.

We offer a full suite of lifecycle services—from structured cabling installation to refresh and decommissioning. Whether deploying new capacity, upgrading existing environments, or maintaining live operations, we ensure infrastructure is optimised for performance, resilience, and growth. From grey space construction to white space fit-out and ongoing operations, we combine global capability with a proven track record on the world's most demanding sites, executing every project with precision, speed, and uncompromising quality.

SERVICES

END-TO-END TAILORED SOLUTIONS

At Onnec, we deliver world-class data centre solutions that support the full lifecycle of your infrastructure, whether you're a hyperscale operator, co-location provider, or a tenant with evolving needs.

GREY SPACE FIT-OUT

Building the Backbone of Co-Lo and Hyperscale Environments

Our services turn grey space into a fully operational data centre. We deploy structured cabling to support both the active and passive IT infrastructure, supporting EMS, BMS, security, Wi-Fi, and admin systems, plus servers and network hardware, ensuring the foundations for seamless connectivity and readiness for live operations.

Our Expertise Includes:

Design & Planning

Structured Cabling

Hardware Installation

Project Management

Network Room Buildouts

WHITE SPACE FIT-OUT

Enabling and Maintaining High-Performance Tenant Environments

White space is where tenants operate and where uptime, flexibility, and performance are critical. Onnec delivers complete fit-outs, including containment, cabinets, and rack-and-stack. Our smart hands engineers work in project and live environments, ensuring seamless, high-quality installations with minimal disruption.

Our Expertise Includes:

Rack & Stack

Structured Cabling

Testing & Certification

Tenant Fit-Out

Operational Support

SERVICES

EXPERT SUPPORT FOR ONGOING PERFORMANCE

Operational excellence doesn't stop at go-live. Onnec's support services provide comprehensive on-site support tailored to your IT needs, ensuring smooth, efficient management of your critical infrastructure.

From patching and testing to custom installs and troubleshooting, our experts ensure your network is built to scale and maintained for peak performance. With a team of skilled on-site engineers, we deliver more than just maintenance—offering peace of mind so you can focus on growing your business.

OUR SUPPORT SERVICES INCLUDE:

- Rack and Stack services
- IMACD
- Relocation/Data migration
- Third party device cabling
- Cabinet levelling
- Labelling and Cable tidy up
- Dedicated Technical Project Management
- GPU Installations and upgrades
- Documentation creation or refresh
- Network & Server cabinet install or expansion

From project-based Smart Hands services to fully embedded, SLA-driven operational support, we provide immediate, tailored assistance for managing, maintaining, and troubleshooting your data centre equipment.

WHY ONNEC

OUR EXPERT UNDERSTANDING

At Onnec, we deliver expert, scalable data centre solutions with a clear focus on your needs. Here's why leading organisations trust us.

LOCAL EXPERTISE, GLOBAL REACH

- Our on-the-ground teams understand local regulations and safety standards, combining regional insight with global best practices to deliver consistent results.

SAFETY-FIRST, ALWAYS

- Health and safety is embedded into every phase of delivery, supported by strong processes, training, and a culture of accountability.

PROVEN TECHNICAL EXPERTISE

- From BIM modelling to smart hands and complex cabling, our certified teams deliver with precision and to the highest industry standards.

FLEXIBLE, TAILORED SERVICES

- Our multi-layered delivery model lets you choose the services you need, whether for a one-off project or long-term support, shaped around your infrastructure and goals.

QUALITY YOU CAN SCALE

- Across single halls or hyperscale campuses, our repeatable processes and quality frameworks ensure consistent, high-standard delivery at any scale.

WHY ONNEC

GLOBAL PARTNERSHIPS TRUSTED SOLUTIONS

For over 30 years, we have cultivated strong partnerships with the world's leading technology providers, ensuring access to the best solutions tailored for every client's unique needs.

These long-standing relationships allow us to select the very best solutions for each and every client application, regardless of manufacturer or vendor. It's this independent, client-first approach that sets us apart. And it's why customers around the world trust Onnec with their most critical technology infrastructures.

WHY ONNEC

WE'RE COMMITTED

We care about what we do, and how we do it. So, we commit to the highest standards in how we treat each other, customers, society and the environment.

TO HEALTH AND SAFETY

The health and safety of our people is the foundation of everything we do. Guided by our 'Safety First' philosophy, it's our top priority across all operations.

We recognise that our greatest assets are our people. Ensuring their well-being is a core commitment that shapes our culture and daily practices. Our highly trained EHS team rigorously enforces protocols and continuously improves standards. This dedication fosters a safe, secure working environment across all our projects and operations.

TO QUALITY

Onnec is dedicated to delivering world-class services and products within a robust framework of approved certifications.

We have a dedicated quality management team that maintains and governs our quality management system. This includes Safe Contractor, Construction Line, ISO27001, ISO9001, and ISO14001. This ongoing investment guarantees that we operate in line with industry best practices, giving you confidence in every project we deliver.

ABOUT ONNEC

Onnec is a leading independent IT infrastructure solutions and services partner, delivering for major organisations worldwide, every day. We specialise in structured cabling, managed services and advanced network solutions. Our highly skilled team of project managers and engineers, supported by world-class vendor partnerships, deliver business-critical IT environments across the globe. Regardless of size or location, every project receives the same level of dedication, expertise and commitment to excellence that defines Onnec's work worldwide.
