

# RELIABLE INFRASTRUCTURE CONNECTED RETAIL

Trusted IT infrastructure partner delivering secure, resilient network solutions that drive business growth.

## WHO WE ARE?

Onnec designs, delivers and supports resilient network infrastructure that connects people, spaces, devices and data. Combining global expertise in structured cabling with advanced enterprise networking capabilities, we create secure, scalable and high-performance connectivity solutions for workplaces, mission-critical data centres and future-ready automation environments.

From initial design and implementation through to ongoing support and managed services, our specialist engineers and technicians work collaboratively with you to ensure your infrastructure is reliable, efficient and ready to support both today's operational demands and tomorrow's growth.

## WHY CHOOSE US?

- **Trusted at the top**  
Trusted by some of the world's largest organisations across more than 40 countries to deliver and support their IT Infrastructure.
- **Committed to Health & Safety**  
Driven by our 'Safety First' philosophy, safety stands as our paramount priority in every aspect of our operations.
- **Proven Retail Experience**  
Decades of industry experience, delivered through local experts, ensuring the right solutions to improve efficiency, maintain compliance and support excellent customer experience.
- **Long-standing Vendor Relationships**  
Our skilled engineers work across multiple vendor solutions to find the right fit for your business — not simply the right vendor.

## OUR SERVICES

### Structured Cabling

The backbone of your infrastructure, built to the highest standard. Our expert team installs structured cabling that ensures certainty in every connected space.

### Secure Infrastructure

End-to-end lifecycle support for secure installations, including equipment installation, integration, and deployment within controlled environments.

### Network Solutions

Securely connect people, spaces and devices with our end-to-end services, from wireless surveys and health checks to design, deployment and ongoing support.

### Managed Services

The right experts at the right time, delivering tailored managed services that keep your IT infrastructure secure, available and performing at its best.

**From warehouse to checkout, Onnec delivers the infrastructure behind seamless retail experiences.**
